**The First International Forum on Patient
Safety**
Together all for a friendly and safe workplace

(Conference Date) January 23-24, 2006

(Place) Tetsumom Memorial Hall
Faculty of Medicine Experimental Research Building, 14 Floor
Graduate School of Medicine, The University of Tokyo, Tokyo, Japan

(Official language) English
Simultaneous interpreter between English and Japanese

Bulletin

by
**Union of Risk Management for Preventive Medicine
(URMPM)**

Supported by

Japan Ministry of Health, Labour and Welfare
Japan Society of Risk Management for Preventive Medicine (JSRMPM)
The University of Tokyo, Japan / The University of Kyoto
The University of Osaka / The University of Tohoku
The University of Kyushu / Hiroshima University
Tokai University / Showa University / Fukushima Prefecture Medical University
International University of Health and Welfare
National Institute of Health Sciences - Pharmaceuticals and Medical Devices Evaluation
Center, Japan
Japanese Society for Investigation of Medical Accidents, Japan
Japan Epidemiological Association
etc

The major foreign contributors

World health Organization Center for Health Development
Organisation for Economic Co-operation and Development (OECD)
British Government, Sweden Government
Karolinska Institute (Sweden), Arkansas University (USA)
University of South California (USA), Russian Academy of Science
Johns Hopkins University Hospital (USA)
Mt. Eliza Centre (Australia), Toranomon Hospital (Japan)
Jin Ai Hospital (Taiwan)
etc.

Sponsored by

The Federation of Pharmaceutical Manufacturers' Associations of Japan
Etc

Honor President
Fumimaro Takaku

President of the Japan Association of Medical Sciences,
Chair of Patient Safety by Japan Government,
President of Jichi Medical University,
Former Dean, Faculty of Medicine, The University of Tokyo

Forum President
Tomomitsu Hotta
Japan
Ryoji Sakai
Kenichi Yoshida

Dean & Prof., Tokai University, Medical School, Internal Medicine,
Chairs of URMPM, WHRMC and JSRMPM. .
Prof. University of Tokyo, Forensic Medicine, Tokyo, Japan

Forum Vice-Presidents

(alphabetical order)

Toru Aruga

Conference Building

7-3-1 Hongo, Bunkyo-ku, Tokyo 113-8654, Japan, TEL: +81-3-3812-2111

Faculty of Medicine Experimental Research Building, locates in east front of Medical Bld #1, in Hongo Campus of the University of Tokyo

Access to the University of Tokyo, Hongo Campus

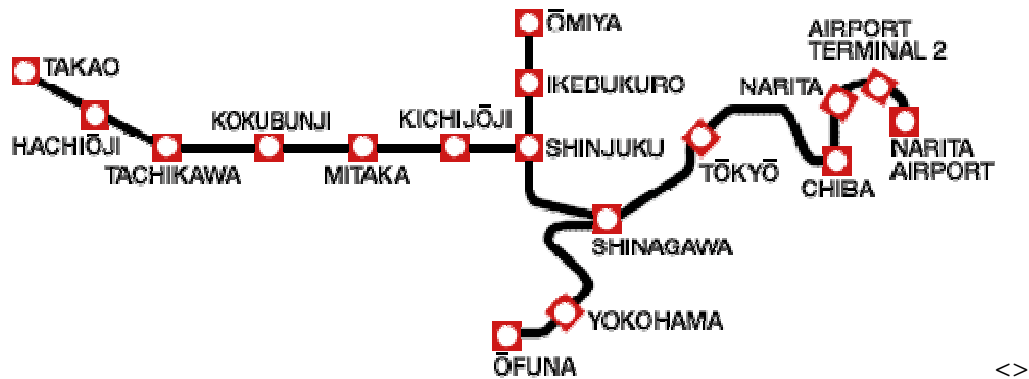

Nearest Stations	Distance from Sta.
Hongo-sanchome Sta. (Subway Marunouchi Line)	8 min. walk
Hongo-sanchome Sta. (Subway Oedo Line)	6 min. walk
Yushima Sta. or Nezu Sta. (Subway Chiyoda Line)	8 min. walk
Todaimae Sta. (Subway Namboku Line)	1 min. walk

From Ochanomizu Sta. (JR Chuo Line, JR Sobu Line)	Subway	Subway Marunouchi Line for Ikebukuro and get off at Hongo-sanchome Sta. 8 min. walk
	Subway	Subway Chiyoda Line for Toride and get off at Yushima Sta. or Nezu Sta. 8 min. walk
	Bus	Toei Bus 07 for Tokyo Univ. and get off at Todai (Tatsuokamon, Byoin-mae, Konai Bus Stop)
Ueno Sta. or Okachimachi Sta. (JR Yamanote Line, etc.)	Bus	Toei Bus 02 for Otsuka Sta. or 69 for Otakibashi-shako-mae and get off at Yushima-yon-chome.
	Bus	Toei Bus 01 for Todai-konai and get off at Todai (Tatsuokamon, Byoin-mae Konai Bus Stop)

Transportation from Narita International Airport to Tokyo

1. Usually foreign visitors will arrive at the Tokyo International Airport in Narita, which is some distance away from the metropolis of Tokyo to the east. You can take either a bus or a train from the airport to the central part of Tokyo.
2. Limousine bus services are available from the airport. They connect to major hotels in Tokyo. You can ask the clerk of the bus service concerning which buses stop near your hotel and the most convenient place where you can get off to get to your hotel. The fare is about 5,000 yen one way.
3. Two train lines operate between the airport and Tokyo. One is the Japan Railroad (JR) Line and the other is the Keisei Line. Both lines have frequent "limited-express" trains which connect the airport and downtown Tokyo. It takes about 60-90 minutes. The limited-express trains have reserved seating only. You need to purchase a reserved seat ticket for these trains at the JR or Keisei ticket counter before boarding. The ticket counters and train platforms are located underground in the airport terminals. The fare for the JR's limited-express train is about 5,000 yen to Tokyo, one way. The Keisei fare is less. The JR's Narita Express is available on every 30 minute. <http://www.jreast.co.jp/e/nex/index.html>

4. If you use the Keisei Line from Narita Airport, the last stop is Ueno Station in the northeastern part of Tokyo. From the Ueno station you need to take a taxi, and from Tokyo station, you can use a subway line to get to the University, as follows.

Presentation Manner

Registration desk locates on a front desk area of Tetsumon Memorial Hall
(Faculty of Medicine Experimental Research Building, 14 Floor)

Equipment for presentation

1. Please carry your laptop computer (* Reference 1) or, media by CR-R or USB memory (* Reference 2). The media for MS Windows is available.
2. As for the orator after completing registration, verify your presentation material at a PC desk in a meeting hall
3. During your presentation, please operate the PC by yourself.
4. For animated pictures and sounds, carry your laptop computer. In addition, embed all of your data in same folder.

Note: Draw up the animated picture file for MS Media Player.

Note: When your presentation links other data (animated picture, etc), retain the original data and please confirm operation in advance.

(* Reference 1) In a case of carrying your own laptop PC (Windows / Macintosh)

Complete registration 30 minutes before your presentation, then confirm operation at a PC desk in a meeting hall.

(For Macintosh user) Carry your Macintosh PC with presentation date.

(For Windows user) We recommend you will carry your laptop PC, when Power Point material contains animated pictures, or when your data are generated by some special software.

- When your laptop PC needs to use a special connector, attached in the PC, please carry it by yourself.
- Confirm output on an external monitor connected with your laptop PC.
- Embed all data in the desktop.
- Cancel the screen saver, power saver, password, etc., at your laptop in advance.
- Carry your AC adapter and the power code.
- To prevent unexpected accidents, carry the backup data (CD-R or USB memory).

(* **Reference 2**) **In a case of carrying your media (only for Windows)**

Complete registration 30 minutes before your presentation, then confirm operation at a PC desk in a meeting hall.

- Presentation data should be generated by PowerPoint 2000 and the later version
- CD-R or USB memory is available for data storage.
- Before carrying media, confirm sliding show presentation of your data in CD-R or USB memory in the other PC than your one.

Call for Papers

We plan to publish a special volume of the full papers presented at the Conference in Journal of Medical Safety (JMS).

Instruction to Author (JMS) <http://www.urmpm.org/JMS/index.html>

Manuscript Submission

Deadline: Please bring your manuscript in triplicate (one original and two copies) with a cover letter, a set of separate high-resolution prints of the figures, and an electronic file in a floppy diskette to the Conference desk. Cover letter: Cover letter should include title, author(s), institution(s), number of tables, figures and reprints, and corresponding address for communication, describing that the manuscript has not been published in, or submitted to, any other journal. Approves of all authors should be attached.

Conference rooms and Office Desk

Allocation of Desks and Rooms

There are 4 rooms of Medical Research and Education Building in the University of Tokyo, Hongo Medical Campus, as follows.

- Room A:** The Testumon Hall in the 14th floor
- Room B:** The Third Seminar Room in the 13rd floor.
- Room C:** The Second Seminar Room in the 2nd floor
- Staff room:** Dept. of Forensic medicine, The 12nd floor

- (Registration desk for participation) Room A
- (Presentation rooms) Room A and Room B
- (Desks to adjust your PowerPoint materials) Room A and Room B
- (Registration desk for Proceedings materials) Room A
- (Cloakroom) Room C.
- (VIP and executive member room) Room C
- (Dining room for oversea participants) Room C

Don't eat and drink any foods in and around the hall and the above desk in the 13rd and 14th Floor.

Registration Desk during the Conference

The registration desk is located on Room A.

The opening hour is from pm 8:15 to pm17:30 during January 23 and 24, 2006.

1. Registration Desks are separated for oversea participants and Japanese ones.

2. Payments of the Conference and the banquet fees are accepted by only cash, if you didn't pre-pay those by bank transfer. We recommend the pre-registration by bank transfer or international credit card (VISA or MATERCARD)

3. All pre-registered participants obtain the name tag and the receipt of the Conference and banquet fees.

4. Presentation materials should be brought to the PC operator at the Conference Desk.

6. Full papers as electronic papers should be submitted to the Conference Desk.

7. Payment of airline ticket for oversea invited guests.

Each of those who were accepted about payment of the airline fees by the Organizers as the oversea invited guest speakers should bring a copy of the receipt to the Conference Desk, to exchange the bank check by Prof. Kazuyuki Serada who assists Mrs. Kitamura during January 23 and 24, 2006. Such participants are requested to send the copies to fax to Japan Office by January 15, 2006.

(Fax number) +81-3-5452-6432

8. Payment of domestic transportation fee for oversea invited guests.

The Organizers will pay domestic train transportation fee between the Narita Airport to the hotel.

9. Accompany person's charge

The Organizer don't pay any fees of the accompany persons. You have to pay the additional room charge on the hotel front desk by yourself.

Meals during the Conference

The 13th Floor in the Conference building has 1 restaurant. The University has several restraints and also it is easy to access many public restraints around Akamon (Red Gate) near the medical school.

(NOTE) We are sorry that it is inhibited to use any foods in and around all of the meeting halls.

Breakfast

All of the overseas invited participants should take breakfast in your hotels.

Lunch

The above food facilities in and around the University are available for lunch. Free lunches for all of overseas invited participants for January 23rd and 24th are served in Room C (the 1st Seminar room in the 2nd floor in same building) by the Organizers.

Dinner

Those food facilities are not available for dinner. The Organizers have the dinner parties on January 22, 23 and 24, 2006 as follows.

(2006 January 22) Welcome Party at the University of Tokyo, Medical Campus.

(2006 January 23) Banquet near the University of Tokyo. Hongo Medical Campus

At table in Japanese pub restraint for invited guests and the pre-registered persons. See our Registration Form.

(2006 January 24) Informal Farewell Party near the Conference place.

At table in Japanese style pub for only invited persons, who will receive the invitation tickets at the Conference desk.

Tea breaks

You can take tea or coffee in Room C (the 1st Seminar Room in the 2nd floor). Takeout food is inhibited.

Program Topics

KL: Keynote Lecture
SL: Special Lecture
GP: General Presentation
*Speaker

Room A (Testumon hall, 14th floor)
Room B (The 3rd seminar room, 13th floor)
Room C (The 1st seminar room, 2nd floor; staff room and lunch space for invited guest speakers)

(The first day) January 23, 2005

Registration desk hour: am 8:15 – pm 16:30 Jan 23, 2005

Presentation should be performed in Room A.

Opennig remarks in the morning of Jan. 23, 2006 Room A

am 8:45 – am 9:00 Jan 23, 2005
Tomomitsu Hotta Dean & Prof. Tokai University, Medical School, Japan,
Ryoji Sakai Chair, Union of Risk Management for Preventive Medicine,
Ken-ichi Youshida Prof. The University of Tokyo, Dept. of Forensic Medicine, Japan

Forwards in the morning of Jan. 23, 2006 Room A

am 9:00 - - am 9:10 Jan 23, 2005
Fumimaro1Takaku President of the Japan Association of Medical Sciences
 Chair of Patient Safety Committee by Japan Government,
 President of Jichi Medical University,
 Former Dean of Medical School in the University of Tokyo

Symposium (1) in the morning of Jan. 23, 2006 Room A

'Investigation system and legal issues on potentially therapeutic death (1)'

Organizers: Research Group on Independent Investigation for Therapeutic Death, Japan
Chairpersons:

Prof. Ken-Ichi Yoshida (University of Tokyo, Japan)

Kazuhiro Inaba (Research Center for Science, Technology, and Culture, Japan)

Recommended for attendance; Nurses, doctors, citizens, lawyers, researchers, and students, who are interested in risk management, investigation, and law for medical practice-associated deaths, are welcome to the symposium.

Outline of the symposium (1) and (2):

The famous litigation on the mistaken injection of disinfectant raised controversies on report of medical practice associated deaths to the police according to the Medical Act article 21. After the controversy, the pilot study on investigation and analysis of deaths associated with medical practices has commenced since September 2005, with a financial support from the Ministry of Health, Welfare, and Labor. In this study, a forensic pathologist, a pathologist, and a clinical specialist co-operatively perform autopsy, and qualified specialist review the medical practice on the basis of autopsy, audit, and medical record. Then, the Regional Committee reviews the report of the qualified specialist. The final report is disclosed to the concerned parties. To establish this model project enterprise, the procedures for autopsy, investigation, and review must be established. Specialists (doctors, nurses) to coordinate the investigative process must also be educated. Additionally, management and resolution for error/liability of doctors, accident prevention, emotional care, and compensation are required. During these processes, patients, families, doctors, nurses, pathologists, lawyers, and administrators should understand mutually. Information disclosure and privacy has to be negotiated. As the transparency ensures fairness of investigation and human right, medical experts must be responsible for accountability. To overcome these issues, we must be aware of various aspects and viewpoints associated with issues associated with medical practices, and discuss on the required revolution in the system in near future. These are the themes addressed in this special symposium.

In Anglo-Saxon countries, law defines the report of deaths associated with medical practices to an administrative organization, where legally qualified administrators disclose the cause of death by autopsy, and investigation. The information is disclosed to the concerned parties. Additionally, more systematic approaches have been undertaken to prevent accidents. To this end, we must discuss whether we should encourage report by crime immunity, and also how we should deal with doctor's errors. Moreover, as indemnity is not almighty, we must also consider on emotional care, and administrative disposition for technical and ethical issues of practitioners. As results of intensive social discussions, the laws and systems have undergone revolution in these countries.

Dr. K Yoshida will overview these issues by comparison of the systems of the foreign

countries and Japan. Dr. T Noguchi reviews the revolution on the medical laws and systems in California. Dr. J Ibrahim introduces the review & liaison system of deaths associated with medical practices, to prevent similar accidents. Dr. Y Takeda will introduce the "model project enterprise" as an attending coordinator (nurse).

Medical practices require informed consent, and the information is also requested after unexpected deaths and accidents. Dr R Lefler has pointed out the uniqueness of the perception of informed consent in Japan. Consistently, Mr. Kawai's study showed that the unique perception misleads the doctor's understanding on report of death investigation in Japan. Dr. H Takeichi points out the undesirable effects of the privacy protection law, while the most serious problem on the legal autopsy of medical practice associated deaths is that the investigative information cannot be disclosed properly to the concerned parties. Doctor E Katayama shows the perspectives on the system failure and legal liability in Japanese litigations. Dr. T Suzuki, a leading lawyer advocating patient's right, has proposed renovation of law and system on death investigation associated with medical practices. Dr Inaba was a judge, and a government lawyer for medical malpractice. He has then investigated the alternative dispute resolution (ADR) system on medical disputes in USA, and advocated the ADR practices in Japan. Finally, Dr. K Tahara (the Ministry of Health, Welfare, Labor) will present the direction of the pilot study from the administrative point of view.

The lecturers will get together to discuss the required near future system for medical practice associated deaths in Japan at the end of this symposium.

am 9:10 - - am 9:50 Jan 23, 2005

KL: How can we learn near future image of a system of report and investigation of medical practice-associated deaths from the foreign systems

Ken-ichi Youshida, Prof. The University of Tokyo, Forensic Medicine, Tokyo, Japan

am 9:50 - - am 10:30 Jan 23, 2005

SL: Death investigation and law for medical practice-associated death in California

Thomas Noguchi,

Emeritus Prof. University of South California, Forensic Medicine, USA

am 10:30 - - am 11:10 Jan 23, 2005

SL: Clinical Liaison Service: A successful system for review of all cases reported from hospitals to coroner

Joseph E Ibrahim

Prof. Clinical review specialist of Victorian Institute for Forensic Medicine, Australia,

Professor Director Aged Care Medicine, Peninsula Health, Rehabilitation, Aged & Palliative Care Services

am 11:10 - - am 11:30 Jan 23, 2005

GP: On the model enterprise for investigation of medical practice-associated deaths

Yoko Takeda Lecturer, Yamanashi Prefecture College of Nursing, Japan

am 11:30 - pm 13:00 Jan 23, 2005

Lunch

Symposium (2) in the afternoon of Jan. 23, 2006 Room A

'Investigation system and legal issues on potentially therapeutic death (2)'

Organizers: Prof. Ken-Ichi Yoshida & Dr. Kazuhito Inaba (University of Tokyo)

pm 13:00 - pm 13:15

Private information issues related to medical practices in Japan

Shoko Tateichi, International University of Medical and Welfare, Japan

pm 13:15 - pm 13:45

System failure and legal liability in medical practice

Eiji Katayama* Adjunct Prof. University of Tokyo, Institute of Frontier Sciences, Japan
Nodoka Nakamura, Abe, Ikubo & Katayama, Tokyo Japan

pm 13:45 - pm 14:00

Informed consent affects report of medical practice-associated death in Japan

Kakuji Kawai, University of Tokyo, Graduate School of Medicine, Japan, Lawyer

pm 14:00 - pm 14:30

Toshihiro Suzuki, Prof. Meiji University, Graduate School of Law, Japan

pm 14:30 - pm 15:00

Legal issues on investigation and dispute for medical practice-associated death in USA

Robert Leflar, Prof. University of Arkansas, School of Law, Arkansas, USA

pm 15:00 - pm 15:30

A proposed way from report to alternative dispute resolution of medical practice associated deaths in Japan

Kazuhito Ibana, Research Center for Science, Technology, and Culture, Japan

pm 15:30 - pm 15:50

Administrative involvement in the revolution of medical practice-associated deaths”

Katsushi Tahara, Manager, Department of Medical Safety, Ministry of Health, Welfare, and Labor, Japan

pm 15:50 - pm 17:00 **Discussion**

Attendants “Required near future image of investigative and legal systems for medical practice associated death: From the pilot study to legal revolution

Chairpersons:

Prof. Ken-Ichi Yoshida (University of Tokyo, Japan)

Kazuhito Inaba (Research Center for Science, Technology, and Culture, Japan)

Educational Lectures in the afternoon of Jan. 23, 2006 Room B

‘Educational program’

am 9:30 - am 11:15 (60 minute English lecture, 30 minutes Japanese, and 15 minute discussion)

(Title) Medical error statistics, and the roles and duties of risk manager in the US hospitals

Martin A. Makary

Assist Prof. Department of Surgery, Johns Hopkins University, Baltimore, USA.

Co-Director Johns Hopkins Quality and Safety Research Group Johns Hopkins University

am 11:15 - pm 12:00 (30 minute English lecture, 10 minute Japanese translation, and 5 minute discussion)

(Title) Introductory Remarks on the Needs of Model-based Statistical Decision.

Hiroe Tsubaki Prof. Tsukuba University, Graduate School of Business Sciences, MBA in International Business, Japan

Director of Risk Analysis Research Center, Institute of Statistical mathematics

pm 12:00 - pm 13:00 **Lunch**

pm 13:00 - pm 13:20 (20 minute Japanese lecture)

(Title) Thunderbird Project - Risk management networking of welfare facilities in Japanese private sectors.

Yasunari Koyama, CEO Koyama Welfare Group, Tokyo, Japan

pm 13:20 - pm 16:05 (60 minute English lecture, 30 minute Japanese translation, and 15 minute discussion)

(Title) Patient safety education, risk communication, safe culture in the Johns Hopkins University and Harvard University hospitals.

Marthin A. Makary

Assist Prof. Department of Surgery, Johns Hopkins University, Baltimore, USA.

Co-Director Johns Hopkins Quality and Safety Research Group Johns Hopkins University

General presentations in the afternoon of Jan. 23, 2006 Room B

(Note) Each presentation should be performed in English with 8 minutes, and 2 minutes discussion.

(Chairpersons)

Irina Ermakova, Leading Scientist, Russian Academy of Science, Moscow, Russia

Yasuyuki Rakue, Prof. Preventive Medicine, International University of Medical and Welfare, Japan.

pm 16:05 - pm 16:15

DEVELOPMENT OF SAFETY CLIMATE SCALE FOR MEDICAL FACILITIES: NURSES' ATTRIBUTES RELATED TO THEIR PERCEPTIONS OF AND ATTITUDES TOWARD SAFETY

Shinichi Matsubara*¹⁾, Junko Ayuzawa²⁾, Akihito Hagihara¹⁾

¹⁾ Department of Health Services Management and Policy, Kyushu University Graduate school of Medicine, Fukuoka, Japan

²⁾ Department of Health Care Administration & Management, Kyushu University Graduate School of Medicine, Fukuoka, Japan

pm 16:15 - pm 16:25

Taiwan teaching hospital website the investigation of health education on patient's right to seek medical advice

Huei Ching Hung, Mingi Chan-Liao, Feng Huang Yang

Department of Risk Management and Patient Safety, Jen Ai Hospital, Tali-Taichung, Taiwan

pm 16:25 - pm 16:35

Investigation of safety of patient-controlled analgesia (PCA) ---- 10 years experience.

Yip W.H.*, Ooi S.J., Chen S.C., Chiang Y.Y., Chan-Liao M., Chung S.J.¹, Kuo C.W

Department of Anesthesiology, Department of Pharmacy¹, Jen-Ai Hospital, Tali, Taiwan

pm 16:35 - pm 16:45

Safety Evaluation For Short-Term Treatment Of Morbid Obese Patients Using Very Low Calories Formula

Yi-Cheng Liu, Seh-Huang Chao, Mingi Chan Liao

Department of Nutrition Therapy, Surgery, Risk Management and Patient Safety

Jen-Ai Hospital, Tali-Taichung, Taiwan

pm 16:45 - pm 17:00

THE EFFECT OF GM-SOYA ON RATS AND THEIR POSTERITY

Irina Ermakova

Leading Scientist, Institute of Higher Nervous Activity and Neurophysiology,

Russian Academy of Science, Moscow, Russia

Banquet

in the evening of Jan. 23, 2006

Japanese classic pub

(The second day) January 24, 2005

Registration desk hour:

am 8:15 – pm 18:00 Jan 24, 2005

Presentation should be performed in Room A, only.

Panel (1) in the morning of Jan. 24, 2006 Room A

'Safe medical and welfare networking, and the economics.'

Chairpersons:

Joseph E Ibrahim	Prof. Peninsula Health, Rehabilitation, Aged & Palliative Care Services, Mt. Eliza Centre, Australia
Michiyo Kojima	Prof. Seirei Christopher College, Emeritus Prof. of The University of Tokyo, Nursing, Japan
Yoon-Shin Kim	Prof. College of Medicine, Hanyang University, Korea
Robert Leflar	Prof. University of Arkansas, School of Law, USA

am 8:30 - am 8:45

SL: Japanese Governmental policy of technological development to prevent medical errors

Takashi Gotoh Japan Ministry of Health, Labour and Welfare

am 8:45 - am 9:15

KL: Continuing the global patient safety challenge: Clean care is safer care.

Jostacio M. Lapitan World Health Organization Health (WHO) Health Development Center

am 9:15 - am 9:35

KL: OECD Index for patient safety

Yasuhisa Kawamura Organisation for Economic Co-operation and Development (OECD) Tokyo Office

am 9:35 - am 10:05

KL: Introduction of clinical governance in the UK

Edward Wright British Embassy of Tokyo

am 10:05 - am 10:35

KL: A management model for health care quality and patient safety by means of an incident report system and an electronic patient record system

Prof. Hiroshi Takeda¹⁾²⁾, Assoc. Prof. Yasushi Matsumura¹⁾ and Prof. Kazue Nakajima³⁾

1) Department of Medical Information Science and Center for Medical Quality Management, Osaka University Medical Hospital

2) President, Medical Safety Association of National University Hospitals of Japan, Vice-President, International Medical Informatics Association

3) Department of Medical Quality Management, Osaka University Medical Hospital

am 10:35 - am 10:45 **Coffee break**

am 10:45 - am 11:00

GP: **A proposal of environmental intervention factors for old people's life**

Young-Ae Yang¹), Jin-Gang Hur²), Yoon-Shin Kim³), Young-Man Roh³), Seoung-Cheol Hong⁴)

1) Dept. of Occupational Therapy, Inje University, Korea

2) Dept. of Physical Therapy, Kang Dong Sacred Heart Hospital, Hallym University, Korea
