

IARMM 6th World Congress of Clinical Safety (6WCCS)

**“Safe Environment and Progressive Skills
Toward Smart Healthcare
--- Based on Quality and Quantity Aspects”**

To be held at

Ambasciatori Palace Hotel, Rome, Italy

6th – 8th September, 2017

To be organized by

International Association of Risk Management in Medicine (IARMM)

Overview

“International Association of Risk Management in Medicine (IARMM)”, was founded as an international medical society for health and safety in Switzerland in April, 2002. Its headquarters has been moved to Tokyo, Japan since 2005. This academic medical society held the 1st World Congress of Clinical Safety (1WCCS) at the University of London, September 2012 with delegates from over 30 countries. And the 2nd World Congress (2WCCS) 2013 at the University of Heidelberg, Germany, 3rd World Congress (3WCCS) 2013 in Madrid, Spain, 4th World Congress (4WCCS) at the Schonbrunn Palace, Vienna, Austria, and 5th World Congress (5WCCS) at Harvard University, Boston, USA..

The main purpose of this World Congress of Clinical Safety 2017 is to improve and promote a high-advanced science in patient safety, medication safety, medical device safety and infectious disease control, disaster health care, environmental health and safety, etc, together around the world. The 6th World Congress (6WCCS) is held in Roma, Italy, September 2017 under a theme of “Safe Environment and Progressive Skills Toward Smart Healthcare --- Based on Quality and Quantity Aspects .”.

While by the end of the 20th century, new topics such as clinical gene technology had been added to medicine’s paramount concern with health, it should not be forgotten that health and safety remain integral to human wellbeing. In the 21st century, risk and crisis management are widely recognized as one of the fundamental aspects of human existence.

For those reasons, this Roma Congress is intended to promote international improvement and the promotion of safe cultures in medical service & practice, pharmacology, infectious disease, etc. The Congress is held in response to many requests to exchange knowledge and experiences with our international experts in risk and emergency management/governance. We are inviting experts from US, Canada, Europe, plus those from several international organizations. The Congress will also involve many delegates from Europe, America, Asia-Pacific, Africa and the Middle East.

It is expected that the Congress will contribute to the improvement of high-advanced safe cultures in healthcare around the world.

October 2016

Main Organizers:

Ryoji Sakai (IARMM & WHRMC President, Japan)
Bartoccioni Filippo (Prof. MD Azienda Sanitaria Locale (ASL) Viterbo, Italy)
Rangar Lofstedt (King’s Collage London, UK)
Bryony Dean Franklin (Imperial College London / University of London, UK)
Dean Ian Curren (Queen Mary, University of London, UK)
Job Harenberg (Heidelberg University Hospital, Germany)
Maria Angeles Cuadrado Cenzual (Complutense University of Madrid, Spain)
Milenko Tanasijevic (Harvard University, USA)
May Pian-Smith (Harvard University, USA)
Helda Pinzon-Perez (California State University, US)
Allen J Vaida (The Institute for Safe Medication Practice, US)
Nathalie de Marcellis-Warin (Dr. Ecole Polytechnique de Montreal, CIRANO, Canada)
Enric Macarulla (Autonomous Univ. Barcelona. Director, 4DHealth Innovation Center, Spain)
Smilja Tudzarova Gjorgova (Medical University, St. Cyril and Methodius (surgery), Macedonia)
Uvo M Hoelscher (Fachhochschulzentrum Münster University, Germany)
Kjell Andersson (Past President of IARMM European Congress, Sweden)
Elena Ivanovna Ryabchikova (Russian Academy of Science, Russia)
