

The 8h World Congress of Clinical Safety (8WCCS)

“Patient Safety Promotion by Multi-Occupation”

To be held at

Grand Majestic Plaza hotel

Prague, Czech Republic

2nd – 4th October, 2019

To be organized by

International Association of Risk Management in Medicine (IARMM)

Overview

“International Association of Risk Management in Medicine (IARMM)”, was founded as an international medical society for health and safety in Switzerland in April, 2002. Its headquarters has been moved to Tokyo, Japan since 2005. This academic medical society held the 1st World Congress of Clinical Safety (1WCCS) at the University of London, September 2012 with delegates from over 30 countries. And the 2nd World Congress (2WCCS) 2013 at the University of Heidelberg, Germany, 3rd World Congress (3WCCS) 2014 in Madrid, Spain, 4th World Congress (4WCCS) 2015 at the Schonbrunn Palace, Vienna, Austria, 5th World Congress (5WCCS) 2016 at Harvard University, Boston, USA, 6th World Congress (6WCCS) 2017 in Rome and 7th World Congress in Bern.

The purpose of World Congress of Clinical Safety (WCCS) is to improve and promote a high-advanced science in patient safety, medication safety, medical device safety and infectious disease control, disaster health care, environmental health and safety, etc, together around the world.

In the 21st century, risk and crisis management are widely recognized as one of the fundamental aspects of human existence. The 8th World Congress (8WCCS) is held in Prague, Czech Republic, October 2019 under a theme of “Multi-occupation approach for patient safety promotion”

Under this theme, this Prague Congress is intended to promote international improvement and the promotion of safe cultures in medical service & practice, pharmacology, infectious disease, etc. The Congress is held in response to many requests to exchange knowledge and experiences with our international experts in risk and emergency management/governance. We are inviting experts from US, Canada, Europe, plus those from several international organizations. The Congress will also involve many delegates from Europe, America, Asia-Pacific, Africa and the Middle East.

It is expected that the Congress will contribute to the improvement of high advanced safe cultures in healthcare together with multiple occupations around the world.

October 2018

Main Organizers:

Ryoji Sakai (IARMM & WHRMC President, Japan)
Rangar Lofstedt (King's Collage London, UK)
Bryony Dean Franklin (Imperial College London / University of London, UK)
Dean Ian Curren (Queen Mary, University of London, UK)
Job Harenberg (Heidelberg University Hospital, Germany)
Maria Angeles Cuadrado Cenzual (Complutense University of Madrid, Spain)
Milenko Tanasijevic (Harvard University, USA)
May Pian-Smith (Harvard University, USA)
Helda Pinzon-Perez (California State University, US)
Allen J Vaida (The Institute for Safe Medication Practice, US)
Nathalie de Marcellis-Warin (Dr. Ecole Polytechnique de Montreal, CIRANO, Canada)
Enric Macarulla (Autonomous Univ. Barcelona. Director, 4DHealth Innovation Center, Spain)
Smilja Tudzarova Gjorgova (Medical University, St. Cyril and Methodius (surgery), Macedonia)
Uvo M Hoelscher (Fachhochschulzentrum Münster University, Germany)
Kjell Andersson (Past President of IARMM European Congress, Sweden)
Elena Ivanovna Ryabchikova (Russian Academy of Science, Russia)
