## **Greetings**

This e-Congress releases on-demand video lecture or PowerPoint with narration. All people around the world join together under e-conference without risk of a new coronavirus called SARS-CoV-2. You can get all of any lectures and poster demonstrations throughout 7 conference days.

The e-conference covers a wide range of safety topics, such as clinical safety (patient safety, medication safety, medical device safety), infectious disease outbreak, and other related safety subjects. The key concept of congress is "Patient Safety Promotion by Multi-Occupation". Fusion of different knowledges generates mega power for great explosion of science. Fusion science is also essential to develop highly-advanced safe and clean science and technology.

After the previous Congresses in London, Heidelberg, Madrid, Vienna, Boston, Rome, Bern and Prague, it is a time for the 9th Congress 2021 on internet. Let's enjoy the e-Congress to meet together with multi occupations, share information and create your new global partnership by new IT technology.

Sincerely,

IARMM
