

'Risk Management Seminar for Health and Safety 2009'-

Venue: The University of Tokyo, Medical Campus

Date: March 26 (Thurs) -28 (Sat), 2009

URL: <http://www.urmpm.org/RMBasic2009/>

Welcome to Risk Management Seminar

Dir Sir/ Madam

Since the Union of Risk Management for Preventive Medicine (URMPM) was born in Switzerland in March, 2002, the current members distribute over 70 countries in both of developed countries and underdeveloped countries, including many international regulatory organizations, such as UN, UNU, WHO, OECD, UNEP, ILO. The URMPM hold e-conference for SARS crisis in 2003, which had been accessed by over 6000 around the world.

To distribute risk management science for health and safety around the world, the URMPM has the education and research center, named 'World Health Risk Management Center (WHRMC)' in Tokyo, Japan, since October, 2002. Thereafter, the WHRMC has developed several educational programs of risk management sciences with an inter graduate school system.

A time is an opening of the international seminar of risk and crisis management for health and safety in March 2009. The target is worldwide education of risk and crisis management sciences. And, the present organizers wish your poster presentation to share the experiences, the knowledge and the skills of preventive and crisis phases of health risk and safety in the international and national aspects for rapid growth of risk and crisis due to current socio-economical globalization.

The URMPM wishes that you will enjoy the present program course as well as the end of March, the most beautiful season of Japan.

Sincerely,

Sincerely,

The Seminar Program Committee
